

CASE MULTI-NARROW BELT CONVEYOR (CMNC-SN-EM)

标准型碳钢多带式输送机

Characteristics / 产品特征

- 模块化设计  
Modular Design
- 高稳定性  
High Stability
- 输送平稳  
Smooth Conveying
- 高安全性  
High Safety

Technical Data / 产品参数

| 参数名称<br>Parameter Name                          | 单位<br>Unit | 数值<br>Data                                                                                         |
|-------------------------------------------------|------------|----------------------------------------------------------------------------------------------------|
| 最大荷载<br>Maximum Load                            | kg         | 50                                                                                                 |
| 输送速度<br>Convey Speed                            | m/s        | 0.1~2.0                                                                                            |
| 环境温湿度<br>Ambient Temperature and Humidity       | /          | -30℃~0℃(低温 /Low Temperature)<br>0℃~40℃( 常温 /Nomal Temperature)<br>≤90%( 无凝露 /Without Condensation) |
| 机架结构<br>Frame Material                          | /          | 碳钢<br>Carbon Steel (Oven Baked Powder Coat)                                                        |
| 控制模式<br>Control Mode                            | /          | 手动 / 联网自动<br>Manual/Networked                                                                      |
| 单机角度<br>Angle of Equipment                      | °          | 30/45                                                                                              |
| 单机宽度 (有效通行宽度)<br>Width of Equipment (Effective) | mm         | 300~1,200                                                                                          |
